DETAILED ACTION

1. Claims 1-28 have been cancelled by preliminary amendment.
2. Claims 29-56 are pending.

Information Disclosure Statement

3. The Information Disclosure Statements respectfully submitted on 11 March 2002 and 12 April 2002 have been considered by the Examiner.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 29-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Appropriate correction is required.
4. Referring to claim 31, please define the term authorization means (AM). It is unclear to the Examiner if the term authorization means (AM) occurs at the host computer or at the read and write station. Appropriate correction is required.

5. Claim 55 provides for the use of read and write station, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 55 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Appropriate correction is required.

6. Claim 56 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for undue multiplicity wherein claims 29 and 26 are repetitious. According to 37 CFR 1.75 (b), more than one claim may be presented provided they differ substantially from each other and are not unduly multiplied.

Claim Rejections - 35 USC § 101

7. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

8. Claim 54 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 54 is a non-functional descriptive

process claim, in which data on a disk is not statutory and the claim is not tangible.

Appropriate correction is required.
